TO WHOM IT MAY CONCERN

We instructed SB Projects to design & construct our new consulting rooms at the RPA Medical Centre. Initially all we knew was how many rooms we needed, our required timing & a rough budget.

SB Projects presented us with draft designs for both the layout & interior design within a short space of time. Bryan & his team then completed the work on the design selected & delivered the rooms & reception to us, fully fitted with furniture, cabling & all interior fit-out ready for us to start seeing patients – all done on time & on budget, as promised. We had regular, informative & helpful communications with Bryan throughout the project & we are all very pleased with the end result.

We would have no hesitation in recommending SB Projects for any fit-out project.

Yours Sincerely

PROF PAUL BANNON
Cardiothoracic Surgeon
